1 December 1964

STATINTL

Please accept my sincere appreciation for your help in the work of the Special Panel which met on 17 and 18 November. I regret it was necessary to convene the meeting on such short notice, but I hope you share my conviction that the thorough airing of the subject which resulted made it well worth-while.

Since the problem is going to be with us for some time to come, I hope you will feel free to pass along any second thoughts and recommendations which may emerge as you have an opportunity to review the problem. In the meantime, I will keep you abreast of any major new developments which may influence the character of the problem or our capabilities.

Sincerely,

151

Albert D. Wheelon
